Web Development – Front-End Design Program

Toronto, ON

Sep 2023 – Aug 2024

George Brown College

Mobile Application Development and Strategy

Toronto, ON

Sep 2022 – Aug 2023

Charotar University of Science and Technology

Computer Engineering

Anand, Gujaerat, India

Jun 2018 – Apr 2022

EXPERIENCE

Front-End Developer

May 2024 – Aug 2024

B12 Give

Toronto, ON

- Developed and maintained dynamic, user-friendly web pages using ReactJS, enhancing page load time by 20% and improving user experience.
- Implemented responsive design techniques, ensuring accessibility and consistent user experience across devices.
- Optimized platform performance by refactoring existing code, reducing rendering times.

iOS Developer

May 2023 – Sep 2023

George Brown College

Toronto, ON

- Designed and developed the Repairmate iOS app, simplifying car service booking.
- Built and integrated features such as GPS-based mechanic search, cost estimation, service booking, and payment processing, improving the booking experience for 500+ users.
- Developed tools for mechanics, enabling profile management, and booking handling, resulting in better workflow and time efficiency for service providers.

Web Developer

May 2021 – August 2022

Vasoya Brothers Infotech

Surat, Gujarat, India

- Developed and deployed responsive websites using HTML, CSS, JavaScript, and Bootstrap, ensuring compatibility across all devices.
- Collaborated with designers and backend developers to create scalable, visually appealing web applications that optimized the user experience and enhanced performance.
- Implemented SEO strategies that improved search engine rankings and increased client website traffic, leading to a 40% growth in customer engagement.

PROJECTS

Repairmate | Swift, Firebase, REST API

- Developed an iOS app to streamline car service bookings, providing a user-friendly interface and seamless experience.
- Integrated Firebase for user authentication and real-time database management, ensuring secure data storage and enhanced app performance.
- Designed and integrated REST APIs for service booking and profile management, improving user engagement and reducing app load time by 30%.

Mantraflex | ReactJS, SCSS, MUI, Bootstrap

- Developed a user-friendly physiotherapy website using ReactJS, SCSS, MUI, and Bootstrap to provide patients easy access to services and appointments.
- Designed a responsive layout ensuring seamless user experience across desktops, tablets, and mobile devices, improving accessibility by 25%.
- Integrated an appointment booking system to allow users to conveniently schedule physiotherapy sessions online.
